SUMMARY

Detail-oriented Software Developer with 1.5 years of experience working with HTML | CSS | JavaScript | Flutter | Flutter Flow | Firebase. Highly adept on both independent and collaborative projects, with emphasis on landing page, Web and Mobile Development.

WORK EXPERIENCE

June - July 2023
Internsavy - Remote
Mobile Application developer

- Worked on projects collaboratively that increased my understanding and knowledge of GitHub immensely.
- Gained in-depth knowledge of various programming languages including JavaScript and C.
- Assisted in all software development aspects such as planning, design and building.

2022 - Present
Personal Projects

- Developed and implemented innovative mobile applications using Flutter and Firebase resulting in a 20% increase in user engagement and a 15% reduction in app crashes.
- Collaborated with cross-functional friend to design and create user-friendly interfaces and intuitive user experiences, leading to a 25% improvement in user satisfaction and a 30% increase in app scalability.
- Utilized Agile methodologies to manage and prioritize multiple projects simultaneously, resulting in the successful completion of 4 mobile applications within tight deadlines
- Conducted thorough testing and debugging of mobile applications across different operating systems and devices, ensuring optimal performance and compatibility with a wide range of devices.
